

For a spotless
reputation...

Market leading, independent commercial laundry service.

We've been delighting customers across London and the South East for more than a quarter of a century.

Most laundry services reject 12-15% of stock. Our linen is of such extraordinarily high quality that less than 1% is rejected.

All our clients have one thing in common: a passion for pristine linen and a desire to pass the benefits on to their own customers.

Bed linen

Whether you're running a 20-bed boutique hotel or a five-star chain, we know that controlling bed linen inventories can be a major headache.

We are here to help you upgrade the quality of your linen and manage your stocks more efficiently. And if you have a problem that needs fixing, we'll respond in minutes rather than hours.

Table linen

There's no denying that our bespoke linen is a cut above the rest when it comes to quality, we provide an impressive choice and diverse collection of table linen manufactured to the highest standards.

Towelling

How many times have you been promised “fluffy towels” and ended up with stock that’s as abrasive as sandpaper and as stiff as cardboard? Our unique washing and drying process means we can supply some of the fluffiest towels in the business — and they’re all branded goods from British wholesalers too.

Shirts

We offer a dedicated shirt laundry service for drycleaners only. The secret of our success lies in superior wash technology, a bespoke hand-finishing process and unerring attention to detail. The result is a softer shirt for your customers, giving them yet another reason to return.

Drycleaners

Drycleaners use us for three reasons: the quality of our laundry services, our capacity and our responsiveness. It's this ability to turn around large orders at short notice that affords our clients scope, scale and a competitive advantage. Our services to drycleaners focus exclusively on flat linen and shirts.

Why choose us?

It may be that your current linen supplier is letting you down on quality or service. Or perhaps you're keen to upgrade your linen in order to meet higher expectations or attract new customers.

Whatever the reason for considering us, we can guarantee...

We've been delighting customers across London and the South East for more than a quarter of a century.

Most laundry services reject 12-15% of stock. Our linen is of such extraordinarily high quality that less than 1% is rejected.

We have 20 vans and 4 lorries in our fleet. This means there's always enough capacity and coverage to meet the biggest orders at the busiest times.

We don't think one spare is ever enough. That's why every single vehicle in our fleet carries two spares for every part – just in case.

From factory-floor hands to delivery drivers, we employ some of the best laundry workers in the business. Our 170-strong team is tried, tested and fastidious to the last.

We are proud to proclaim that we are 'always on': we serve our customers 24 hours a day, seven days a week, 365 days a year.

The majority of our customers are high-end independent hotels, although we will happily work for any organisation that has a passion for top-quality linen and wants to pass the benefits on to its customers.

Zero. This is the number of customers we have lost due to shortcomings in quality.
